**Model Music Programs** Michael Blakeslee, Linda C. Brown, Ashley Opp Hofmann, 2008 Model Music Programs Ideas for Everyone presents practical

applications from the selected programs as well as the best of the rest of the applicants to share with all music educators. Learn how creative music teachers have built successful music programs in categories such as obtaining outside funding, partnering with the community, serving students with special needs, multicultural and interdisciplinary learning, and collaborating with professionals. In addition, use the wealth of resources to replicate the successful aspects of the model programs. In a nationwide search for model music programs, MENC judges selected twelve programs for special recognition. Model Music Programs Ideas for Everyone showcases the selected programs in four categories: technology, interdisciplinary, and multicultural learning, music for all, and standards-based learning. See how each selected program handles resources, scheduling, facilities, community and booster club support, as well as budget and school administration support. Model Music Programs Ideas for Everyone also examines characteristics that contributed to the success of the model programs: adequate resources, universality, exemplary personnel, strong community ties, and a clear creative vision.

**Learning to Teach Music in the Secondary School** Chris Philpott, 2001. Learning to Teach Music in the Secondary School is intended to support student teachers, newly qualified teachers, and more experienced music teachers in their professional development. Topics covered include the place of music in the curriculum, the nature of musical learning, planning, managing, and assessing musical learning, school examinations, and music outside of the curriculum. One of the main premises of the book is that music needs to be taught musically, with specific reference to both the nature of music itself and its metaphorical significance. It is important that music itself guides what goes on in the music classroom if we are to motivate our pupils and help them to fulfil their potential as musicians. This book will help student teachers to develop their subject knowledge, teaching skills, understanding of the wider issues, and their ability to reflect on classroom practice.
