Language Learning Online: Towards Best Practice Uschi Felix, 2003-01-01 This important and accessible book identifies the key elements in the quest for best practice in online language teaching The authors all of them international experts who have made significant contributions to the debate about how to exploit the new technologies consider online language teaching from three crucial perspectives design tools and pedagogy Their recommendations are such that they can actually be realised in spite of the limitations of today's educational environments The book demonstrates that the new technologies offer far greater potential for authentic encounters and constructivist learning than even the best classroom simulations that automated exercise and feedback structures can be individualised and meaningful and that if we have to teach fully by distance these ventures no longer need to represent impoverished versions of live classes but can engender a strong sense of community To achieve this we need to understand what elements constitute good design both in technical and pedagogical terms to think seriously about providing the best feedback possible and to have the courage to take the risks associated with letting go of traditional learner teacher relationships *Multilingualism, Second Language Learning, and Gender* Aneta Pavlenko, 2001 Annotation The goal of this collection of essays is to transcend the Anglocentric monolingual bias which has characterized much of the field of language and gender studies by creating a new field combining multilingualism second language learning SLL and gender The focus of the new field is the relationship between gender ideology power and linguistic practices in bi and multilingual communities The 11 contributing authors include scholars from the fields of linguistics language teaching and acquisition teacher education communication and sociology and equity studies from the UK the U S Canada and Australia Annotation copyrighted by Book News Inc Portland OR **Manual of Language**

Acquisition Christiane Fäcke,2014-08-25 This manual contains overviews on language acquisition and distinguishes between first and second language acquisition It also deals with Romance languages as foreign languages in the world and with language acquisition in some countries of the Romance speaking world This reference work will be helpful for researchers students and teachers interested in language acquisition in general and in Romance languages in particular
