Moran,1984 Changes occurring in college libraries as a result of automation are described along with financial issues in library management personnel issues and changing patterns of collection development and resource sharing New developments include online public access catalogs computer generated bibliographies online search systems and computerized library networks that enable sharing of cataloging records To promote the conversion to modern information services library directors need managerial leadership and fund raising skills In addition to a growing number of academic librarians who have been given faculty status the library school curriculum and the credentials needed by beginning librarians have changed in response to modern developments As a result of the tremendous growth in the volume and costs of publications campus libraries have been unable to maintain previous levels of collection development Examples of resource sharing which addresses this difficulty are identified Also considered are new formats in library collections e g video discs and the problem of preserving library materials Recommendations concerning planning financial support of libraries and cooperative library ventures are included **Library Currents** ,2000 *Library Closures* Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2012-11-06 Recent campaigns against the closure of local libraries have highlighted the strong attachment that many people feel to their library services However much of the focus of the campaigns has been on library branches rather than the broader question of the preservation and possible enhancement of the library service Reductions in opening hours and the loss of professional staff may damage the service more than the closure of particular buildings The provision of a library service is a statutory duty but a number of councils have drawn up plans that fail to comply with the requirement to provide a comprehensive and efficient service A full assessment of the needs of the local population for the services is key Guidance on how to assess local needs does exist but more must be done to disseminate it Although the future of public libraries may be uncertain there is opportunity for reassessment of their roles and how they are organised The Committee saw many examples of innovative thinking about what libraries can offer to the local population and a number of models of how those services might be provided Councils which have transferred the running of libraries to community volunteers must continue to provide support otherwise failure may be viewed as closures by stealth The Committee looks forward to the promised report by the end of 2014 on the cumulative effect on library services of the cuts in local authority provision and the promotion of alternatives such as transfers to community volunteers *Public Libraries* ,1984 The Online User's Encyclopedia Bernard Aboba,1993 The world of global networks provides a bewildering variety of options to the Macintosh and PC user Here at last is a comprehensive treatment of online resources written by a telecommunications expert Detailed coverage of the major networks shows the user how to get the most out of these global networks Key topics are explained in depth from a practical viewpoint **eBooked!** H.
