Jackson, 2018-02-06 China's relations with its neighbors have evolved since 1949 and in the 21st century many scholars argue that China's rising power has led it to be increasingly domineering over those smaller countries in Northeast Southeast Central and South Asia The evolution of China's regional relations needs to be examined comprehensively since China counts twenty seven countries as its neighbors large and small While China's official policy toward all of these countries is to treat them as good neighbors and partners some of these relationships have been spectacularly deteriorating while others have been quietly improving over the last two decades Jackson takes a comparative foreign policy approach and compares China's status as a regional hegemon with the United States Russia India Brazil South Africa and Nigeria The result is a broader theory as to why regional powers are sometimes intimidating and at other times accommodating An important contribution to studies on China this book will prove useful to scholars and students in Chinese and Asian foreign policy comparative foreign policy and international relations *Cpc Practice Test, 2014 Edition* Trivium Test Prep, Trivium Test Prep Staff, 2014-01-08 240 CPC practice exam questions including highly detailed explanations and answers Working through CPC practice exam questions is the most important and one of the most effective methods possible for preparing for the Certified Professional Coder exam If you don't know what is it on the exam how can you be ready for test day We understand that not everyone needs or wants a comprehensive study guide so if you feel you know the material and just want to hone your skills and get some practice you will find no better CPC exam practice test questions than these **Euro-Par 2023: Parallel Processing Workshops** Demetris Zeinalipour, Dora Blanco Heras, George Pallis, Herodotos Herodotou, Demetris Trihinas, Daniel Balouek, Patrick Diehl, Terry Cojean, Karl Förlinger, Maja Hanne Kirkeby, Matteo Nardelli, Pierangelo Di Sanzo, 2024-04-15 This book constitutes revised selected papers from the workshops held at the 29th International Conference on Parallel and Distributed Computing Euro Par 2023 which took place in Limassol Cyprus during August 28 September 1 2023 The 42 full papers presented in this book together with 11 symposium papers and 14 demo poster papers were carefully reviewed and selected from 55 submissions The papers cover all aspects of parallel and distributed processing ranging from theory to practice from small to the largest parallel and distributed systems and infrastructures from fundamental computational problems to applications from architecture compiler language and interface design and implementation to tools support infrastructures and application performance aspects Part I First International Workshop on Scalable Compute Continuum WSCC 2023 First International Workshop on Tools for Data

**Clan Communities in Rural China** Zongli Tang,2021-06-17 Using data collected in fieldwork and surveys this book  
 examines China s clan system and local clan communities in rural Anhui covering events in two periods the imperial pattern  
 as seen in the first half of the twentieth century and changes since 1949 Revealed by this research during the late Qing and  
 the Republic Era a local clan in the investigated areas was run as a highly autonomous community with a strong religious  
 focus which challenges the corporate model raised by Maurice Freedman Through examining single surname villages citang  
 constructions and updating of genealogies local clans in Huadong Huizhou and the lower Yangtze River plains in particular  
 developed earlier than those in the Pearl River Delta Region Taking a cross disciplinary viewpoint this book analyses changes  
 in local clan communities and clan culture as brought by the Chinese Revolution Mao s political campaigns and Deng s  
 reforms Starting with the late 1990s a large migration from villages to cities has rapidly altered rural China This geographic  
 mobility would undermine the common residence that serves as part of a clan s foundation Under such situation what  
 transformations have taken place or will affect China s clan system Will the system continue to revitalise or die out Local  
 Clan Communities in Rural China reports these events transformations and attempts to answer these questions Placing a  
 special emphasis on issues that have been overlooked by prior studies this book brings to light many new facts and  
 interpretations and provides a valuable reference to scholars in fields of sociology anthropology history economics cultural  
 studies urban studies and population studies      **Industrial Tree Plantations and the Land Rush in China** Yunan  
 Xu,2020-03-12 This book analyses the political and economic causes mechanisms and impacts of the industrial tree plantation  
 boom in China In the past two decades the industrial tree plantation sector has been expanding rapidly in China especially in

Guangxi Province Based on extensive primary data this book concentrates on the political economy of the sector's expansion with a focus on the recent and dramatic agrarian transformation involving the land labour nexus the impact on villagers livelihoods the role of the state and political reactions from below The book questions the stereotypical portrayal of local communities as the excluded villager Instead it demonstrates that this is a much more complex issue with varying levels of passive and active forms of inclusion and exclusion within local communities While most literature focuses on crop booms for food and biofuel production the industrial plantation sector has largely been overlooked despite it being one of the biggest sectors in the current rush for land Filling this lacuna this book also reveals that while China has traditionally been painted as a major land grabber and consumer of crop booms it is also a destination of foreign investment In doing so the book highlights how large scale foreign land deals can also take place in traditional grabber countries like China which feeds into the wider debates about global land politics and resource grabbing This book will be of great interest to students and scholars of land grabbing rural development and agrarian transformations as well as Chinese development
