Students Maureen Metcalf,Amy Barnes,2015-12-21 Of all the topics surrounding leadership today innovation is one of the most significant Yet despite the volume of resources exploring both innovation and leadership most approaches provide directional solutions that are merely anecdotal In addition these fictive solutions lack sufficient information for leaders to utilize their own capacities to make measurable change As a college student you are provided with many opportunities to

develop your own leadership skills and capacities through coursework co curricular involvement and part or full time work experiences You are the future leaders of our companies our nonprofit organizations our government and our education system It is extremely important that we as a society invest in the development of our future leaders We know that leadership plays a critical role in today s ever changing world and that innovation is a strategic necessity for tackling the tough problems we face today and those we will face in the near future Still ensuing questions on how to lead and where to innovate remain puzzling for leaders and world leaders What is the role of leadership in times of looming uncertainty How will organizations innovate to overcome largely unprecedented challenges And how can we work together and leverage our strengths to more effectively address the future small and large challenges we will encounter in our organizations This workbook is designed to help answer those questions and to help you with the critical selfevaluation needed to refine and innovate your own leadership skills It is fundamentally about leadership yet equally an account of applying innovation
